

Chapter 1 — Lesson Planning

60 prompts

Most lesson planning goes wrong in the same place: you start listing activities before you have decided what would count as proof that the lesson worked. These prompts push the evidence to the front — what will you see, in the room, that tells you they got it — and build the lesson backward from there.

What's in here

Group	Prompts	Use when
Complete lessons	12	You need the whole thing, start to finish
Backward unit planning	8	You have three weeks and an end assessment
Standards and objectives	8	Turning official wording into something teachable
Warm-ups and exit tickets	8	The first five minutes and the last five
Substitute and emergency plans	6	You are ill at 6am
Pacing and transitions	6	The lesson is right but the timing is not
Projects and interdisciplinary	6	Longer work, more than one subject
Reflection and adaptation	6	It did not go as planned; now what

Worth knowing before you start

Give it the real constraints — 50 minutes, 26 students, no lab this week. Vague

input produces a plan for a class that does not exist.

If a standard has to be followed, paste its exact wording. Do not ask the model to recall a standard code; it will produce something that looks right.

Treat every suggested timing as optimistic. Handing out paper takes four minutes.

Every prompt in this chapter

Complete Lessons

ID	Prompt	Grades
LP-001	Build a complete evidence-led lesson	3-5, 6-8, 9-12
LP-006	Plan a concept-development lesson from prior knowledge	3-5, 6-8, 9-12
LP-007	Plan an inquiry lesson around a puzzling phenomenon	3-5, 6-8, 9-12
LP-008	Create an explicit-instruction lesson with guided release	3-5, 6-8, 9-12
LP-009	Design a discussion-centered lesson with equitable participation	3-5, 6-8, 9-12
LP-010	Build a no-technology lesson using basic classroom materials	3-5, 6-8, 9-12
LP-011	Create a lesson around one complex text or source	3-5, 6-8, 9-12
LP-012	Plan a safe hands-on investigation lesson	3-5, 6-8, 9-12
LP-013	Design a problem-based mathematics lesson	3-5, 6-8, 9-12
LP-014	Compress a full lesson into a purposeful 30-minute period	3-5, 6-8, 9-12
LP-015	Expand a lesson for a 90-minute block without filler	3-5, 6-8, 9-12
LP-016	Repair a draft lesson whose activities do not match its objective	3-5, 6-8, 9-12

Backward Unit Planning

ID	Prompt	Grades
----	--------	--------

LP-002	Plan a unit backward from mastery	3-5, 6-8, 9-12
LP-017	Unpack final mastery into a prerequisite learning map	3-5, 6-8, 9-12
LP-018	Design a final performance task before planning daily lessons	3-5, 6-8, 9-12
LP-019	Create a coherent lesson sequence from an approved assessment	3-5, 6-8, 9-12
LP-020	Place formative checkpoints and reteaching decisions across a unit	3-5, 6-8, 9-12
LP-021	Audit a unit for gaps, repetition and cognitive progression	3-5, 6-8, 9-12
LP-022	Shorten a unit while protecting its essential learning	3-5, 6-8, 9-12
LP-023	Add transfer and reflection to the end of a unit	3-5, 6-8, 9-12

Standards And Objectives

ID	Prompt	Grades
LP-003	Turn a standard into measurable objectives	All
LP-024	Separate knowledge, skill and reasoning within a standard	3-5, 6-8, 9-12
LP-025	Rewrite a technical objective as a student-friendly I-can statement	3-5, 6-8, 9-12
LP-026	Create observable success criteria for an existing objective	3-5, 6-8, 9-12
LP-027	Check whether an activity truly aligns to a supplied standard	3-5, 6-8, 9-12
LP-028	Map several objectives into a logical teaching order	3-5, 6-8, 9-12
LP-029	Identify prerequisite skills without lowering the grade-level target	3-5, 6-8, 9-12
LP-030	Write evidence statements showing what mastery would look like	3-5, 6-8, 9-12

Warm Ups And Exit Tickets

ID	Prompt	Grades
LP-004	Create a matched warm-up and exit ticket	3-5, 6-8, 9-12
LP-031	Design a warm-up that exposes prior knowledge in five minutes	3-5, 6-8, 9-12
LP-032	Write a misconception-revealing hinge question	3-5, 6-8, 9-12
LP-033	Create an exit ticket with secure, developing and not-yet response bands	3-5, 6-8, 9-12
LP-034	Turn yesterday's exit-ticket patterns into today's opening task	3-5, 6-8, 9-12
LP-035	Build a retrieval-practice warm-up without introducing new content	3-5, 6-8, 9-12
LP-036	Create a transfer exit ticket that cannot be answered by copying	3-5, 6-8, 9-12
LP-037	Audit an exit ticket for alignment, ambiguity and reading load	3-5, 6-8, 9-12

Substitute And Emergency Plans

ID	Prompt	Grades
LP-005	Create a no-surprises substitute lesson	All
LP-044	Build an emergency no-print lesson from materials already in the room	3-5, 6-8, 9-12
LP-045	Write exact substitute directions that require no subject guessing	3-5, 6-8, 9-12
LP-046	Create a technology-failure backup for a digital lesson	3-5, 6-8, 9-12

LP-047	Prepare an independent catch-up lesson for an unexpected absence	3-5, 6-8, 9-12
LP-048	Audit a substitute plan for safety, clarity and collection procedures	3-5, 6-8, 9-12

Pacing And Transitions

ID	Prompt	Grades
LP-038	Build a realistic minute-by-minute lesson timeline	3-5, 6-8, 9-12
LP-039	Diagnose where a lesson is likely to run out of time	3-5, 6-8, 9-12
LP-040	Write concise transitions between lesson segments	3-5, 6-8, 9-12
LP-041	Create a pacing contingency when discussion runs long	3-5, 6-8, 9-12
LP-042	Plan meaningful early-finisher work connected to the objective	3-5, 6-8, 9-12
LP-043	Adapt one lesson for both a regular period and a shortened schedule	3-5, 6-8, 9-12

Projects And Interdisciplinary Lessons

ID	Prompt	Grades
LP-049	Launch a project with a clear driving question and final product	3-5, 6-8, 9-12
LP-050	Connect two subjects around one authentic problem	3-5, 6-8, 9-12
LP-051	Break a multiweek project into milestones and checkpoints	3-5, 6-8, 9-12

LP-052	Create individual accountability inside a group project	3-5, 6-8, 9-12
LP-053	Design a project rubric that measures learning rather than decoration	3-5, 6-8, 9-12
LP-054	Plan a public-product option that protects student privacy	3-5, 6-8, 9-12

Reflection And Adaptation

ID	Prompt	Grades
LP-055	Turn lesson evidence into a next-day adjustment	3-5, 6-8, 9-12
LP-056	Write a post-lesson reflection based on observations rather than feelings alone	3-5, 6-8, 9-12
LP-057	Identify what to keep, change and investigate after a lesson	3-5, 6-8, 9-12
LP-058	Adapt a lesson after most learners miss the same misconception	3-5, 6-8, 9-12
LP-059	Plan targeted follow-up for three anonymous response patterns	3-5, 6-8, 9-12
LP-060	Compare the intended lesson with what learners actually demonstrated	3-5, 6-8, 9-12

LP-001 · Build a complete evidence-led lesson

Grades 3-5, 6-8, 9-12 · Science

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a complete evidence-led lesson.

COPY FROM HERE

Build a complete evidence-led lesson.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [MATERIALS: supply verified information; do not leave blank]
- [OBJECTIVE: supply verified information; do not leave blank]
- [LESSON_MINUTES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Map each lesson segment to observable evidence. Include actual exit questions and answers, not just an instruction to write them.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Objective: model how light supplies energy for plants to make sugar from water and carbon dioxide. Agenda: prior ideas 5 min; teacher model 10; paired arrow sort 12; independent model 16; exit 7. Matter inputs: water and carbon dioxide; energy input: light. Products: sugar and oxygen. Exit: Can a watered plant make sugar without carbon dioxide? Key: not by photosynthesis without a carbon dioxide source. Check that light is labelled energy, not matter. Prepare arrow cards before class.

LP-002 · Plan a unit backward from mastery

Grades 3-5, 6-8, 9-12 · Mathematics

WHEN YOU NEED THIS

You have an end goal and need a coherent learning sequence.

COPY FROM HERE

Plan a unit backward from mastery.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [LESSON_COUNT: supply verified information; do not leave blank]
- [FINAL_PERFORMANCE: supply verified information; do not leave blank]
- [PREREQUISITES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Plan the final evidence first, then sequence prerequisites. Explain why each lesson is needed; mark optional extensions separately.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Work backward from a six-item assessment sampling solving, checking and explanation. Lessons: equality; two-step equations; distribution; combining like terms; variables both sides; no/infinite solutions; mixed practice; assessment. Example final item: $3(x+2)=2x+11$ gives $x=5$; substitution gives $21=21$. Checkpoints follow lessons 2, 4 and 6. Teacher decides whether the evidence supports moving on; any percentage cutoff is a local planning choice, not a universal rule.

LP-003 · Turn a standard into measurable objectives

All grades · Any subject

WHEN YOU NEED THIS

A standard is too broad to teach or assess in one lesson.

COPY FROM HERE

Turn a standard into measurable objectives.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [EXACT_STANDARD: supply verified information; do not leave blank]
- [LESSON_COUNT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Quote the standard unchanged. Separate its verbs, content and conditions, and connect each objective to an observable response.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Original objective: Identify a claim and explain how two details support it. Knowledge: claim, detail, relevance. Actions: identify, select, explain. Sequence: recognize claims; select relevant details; explain the link; evaluate a new paragraph. Success evidence: the learner identifies the claim, selects two genuinely relevant details and explains each connection. Missing: an authorized source paragraph. Do not invent a curriculum-standard code.

LP-004 · Create a matched warm-up and exit ticket

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

You want to expose prior knowledge and measure growth in one lesson.

COPY FROM HERE

Create a matched warm-up and exit ticket.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PRIOR_CONCEPT: supply verified information; do not leave blank]
- [TARGET_CONCEPT: supply verified information; do not leave blank]
- [MINUTES_PER_CHECK: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Use different questions before and after instruction while measuring the same concept. Explain what can and cannot be inferred about progress.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Warm-up: If snails decrease, which consumer directly loses food? Key: perch. Exit: Explain one possible effect on herons and one on algae. Key: herons may decline if perch decline; algae may increase if grazing declines. Both are conditional predictions in this simplified

model, not guaranteed ecosystem outcomes. Use an explanation probe before deciding whether a learner confuses direct and indirect effects.

LP-005 · Create a no-surprises substitute lesson

All grades · Any subject

WHEN YOU NEED THIS

A substitute teacher needs a safe, self-contained plan with minimal preparation.

COPY FROM HERE

Create a no-surprises substitute lesson.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ESTABLISHED_ROUTINES: supply verified information; do not leave blank]
- [AVAILABLE_MATERIALS: supply verified information; do not leave blank]
- [LOCAL_SAFETY_PROCEDURES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write a substitute script, independent task and answer key. Leave attendance and emergency procedures for local completion; never invent them.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Write a 3-by-3 grid labelled columns A-C and rows 1-3, with north upward. Mark library A1, pond C1 and gate C3. Ask: Where is the pond? Which direction from pond to gate? Key: C1; north. Schedule: starter 5, model 10, guided practice 15, independent map 15, check/collect 10. Attendance and emergency instructions: use the locally completed attachment; this excerpt supplies neither.

LP-006 · Plan a concept-development lesson from prior knowledge

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan a concept-development lesson from prior knowledge.

COPY FROM HERE

Plan a concept-development lesson from prior knowledge.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PRIOR_EXAMPLES: supply verified information; do not leave blank]
- [TARGET_CONCEPT: supply verified information; do not leave blank]
- [KNOWN_CONFUSION: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Sequence examples and non-examples before naming the concept. Include a question that tests the boundary of the new idea.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.

- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Show equal-length strips with one half shaded and two fourths shaded. Ask what changed and what remained the same. Fold the half into two equal parts and label $1/2=2/4$. Non-example: halves drawn from unequal wholes cannot establish equal amounts.

Independent check: Is $2/3$ equal to $4/6$ for equal wholes? Key: yes, each third is split into two sixths. Require an explanation, not a memorized multiplying rule alone.

LP-007 · Plan an inquiry lesson around a puzzling phenomenon

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan an inquiry lesson around a puzzling phenomenon.

COPY FROM HERE

Plan an inquiry lesson around a puzzling phenomenon.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBSERVABLE_PHENOMENON: supply verified information; do not leave blank]
- [AVAILABLE_EVIDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Start with observation before explanation. Compare two competing explanations and identify evidence that would distinguish them; allow uncertainty.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Record outside surfaces before and after observation. Compare leakage with water condensing from surrounding air. Keep cup material and water volume similar; change temperature. The teacher checks sealing and notes surface temperature if a thermometer is available. Droplets predominantly on the cold cup support condensation but a single comparison does not prove every alternative impossible. No learner tastes the water; wipe spills. Do not fabricate measurements.

LP-008 · Create an explicit-instruction lesson with guided release

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create an explicit-instruction lesson with guided release.

COPY FROM HERE

Create an explicit-instruction lesson with guided release.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TARGET_PROCEDURE: supply verified information; do not leave blank]
- [PREREQUISITE_CHECK: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write one complete think-aloud, guided practice and independent item. Use demonstrated readiness, not elapsed time alone, to release support.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

I do: $23 \times 4 = (20 \times 4) + (3 \times 4) = 80 + 12 = 92$. Explain why both tens and ones are multiplied. We do: $12 \times 3 = 30 + 6 = 36$. You do: $31 \times 3 = 90 + 3 = 93$. After each stage ask why the tens product is not 6 in the first example. Keep guidance if learners cannot explain place value; remove it when evidence supports independence. Check final answers by repeated addition or another valid method.

LP-009 · Design a discussion-centered lesson with equitable participation

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a discussion-centered lesson with equitable participation.

COPY FROM HERE

Design a discussion-centered lesson with equitable participation.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [DISCUSSION_QUESTION: supply verified information; do not leave blank]
- [AUTHORIZED_SOURCES: supply verified information; do not leave blank]
- [PARTICIPATION_OPTIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Allow silent preparation and written participation. Require a claim with evidence and a response to a counterargument, not compulsory public speaking.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Question: Which option would you recommend, and what evidence is still needed?

Prepare silently, discuss in groups of four, then write an individual recommendation. Roles: facilitator, evidence-checker, challenger and summarizer. Both recommendations can be defensible if qualified. Missing: housing need, costs, environmental effects and community views. Do not invent these facts to settle the issue. Offer written participation instead of compulsory speech.

LP-010 · Build a no-technology lesson using basic classroom materials

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a no-technology lesson using basic classroom materials.

COPY FROM HERE

Build a no-technology lesson using basic classroom materials.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [BASIC_MATERIALS: supply verified information; do not leave blank]
- [NO_TECH_CONSTRAINT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Use only the listed physical materials. Replace every digital action with a concrete classroom action and a collectible evidence product.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Model pairs (2,3), (4,6), (8,12). Ask why (4,5) is not the same ratio. Key: both quantities must scale by the same factor. Sequence: launch 5, model 8, pairs 12, independent check 10, discuss 5. Exit: six yellow parts require how many blue? Key: nine. Use drawn units, not actual paint, so only the stated materials are needed.

LP-011 · Create a lesson around one complex text or source

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a lesson around one complex text or source.

COPY FROM HERE

Create a lesson around one complex text or source.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [AUTHORIZED_TEXT: supply verified information; do not leave blank]
- [READING_GOAL: supply verified information; do not leave blank]
- [ESSENTIAL_VOCABULARY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Anchor questions to supplied passages. Distinguish literal evidence from interpretation and do not invent quotations or page references.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Preview untended. First read: summarize the contrast. Second read: identify the detail supporting the inference that watering helped. Key: volunteers watered daily while the untended patch browned. Ask what else might explain the difference; soil or shade are

possibilities, not supplied facts. Students distinguish an observation from an inference. Do not claim this short passage proves watering was the only cause.

LP-012 · Plan a safe hands-on investigation lesson

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan a safe hands-on investigation lesson.

COPY FROM HERE

Plan a safe hands-on investigation lesson.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [APPROVED_PROCEDURE: supply verified information; do not leave blank]
- [VARIABLES: supply verified information; do not leave blank]
- [SAFETY_LIMITS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Identify changed, measured and controlled variables; include units and repeated measurements. Stop if the proposed procedure exceeds supplied safety limits.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Question: Does water temperature change dissolving time? Change temperature; measure seconds until visible sugar disappears; keep volume, sugar amount and stirring pattern constant. Repeat each condition three times if the schedule allows. Table columns: condition, trial, temperature if measured, seconds. Predict a pattern, but leave results blank. Discuss stirring inconsistency and endpoint judgment as limitations. Teacher verifies safe temperatures and spill handling before use.

LP-013 · Design a problem-based mathematics lesson

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a problem-based mathematics lesson.

COPY FROM HERE

Design a problem-based mathematics lesson.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PROBLEM_CONTEXT: supply verified information; do not leave blank]
- [VERIFIED_SOLUTION: supply verified information; do not leave blank]
- [REPRESENTATIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Offer two valid solution routes and compare their assumptions. Verify calculations and explain why a tempting incorrect route fails.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
 - Answers and subject content checked independently; access and local policy preserved.
 - No identifying or sensitive records were shared; final recipient/content checked locally.
-

LP-014 · Compress a full lesson into a purposeful 30-minute period

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to compress a full lesson into a purposeful 30-minute period.

COPY FROM HERE

Compress a full lesson into a purposeful 30-minute period.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL_PLAN: supply verified information; do not leave blank]
- [ESSENTIAL_EVIDENCE: supply verified information; do not leave blank]
- [THIRTY_MINUTE_LIMIT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Produce a 30-minute timeline whose durations sum correctly. State what is removed and why the core assessment remains valid.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.

- No identifying or sensitive records were shared; final recipient/content checked locally.
-

LP-015 · Expand a lesson for a 90-minute block without filler

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to expand a lesson for a 90-minute block without filler.

COPY FROM HERE

Expand a lesson for a 90-minute block without filler.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL_PLAN: supply verified information; do not leave blank]
- [NINETY_MINUTE_LIMIT: supply verified information; do not leave blank]
- [BREAK_REQUIREMENTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Use the extra time for practice, feedback and transfer. Include transitions and a break where required, not a longer lecture by default.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
 - Answers and subject content checked independently; access and local policy preserved.
 - No identifying or sensitive records were shared; final recipient/content checked locally.
-

LP-016 · Repair a draft lesson whose activities do not match its objective

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to repair a draft lesson whose activities do not match its objective.

COPY FROM HERE

Repair a draft lesson whose activities do not match its objective.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [DRAFT_LESSON: supply verified information; do not leave blank]
- [OBJECTIVE: supply verified information; do not leave blank]
- [ASSESSMENT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Return keep/change/remove decisions with evidence of alignment. Repair only mismatched segments and show the revised assessment.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-017 · Unpack final mastery into a prerequisite learning map

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to unpack final mastery into a prerequisite learning map.

COPY FROM HERE

Unpack final mastery into a prerequisite learning map.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [MASTERY_TASK: supply verified information; do not leave blank]
- [KNOWN_PREREQUISITES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create prerequisite dependencies, a diagnostic for each and a short repair activity. Label unverified prerequisite assumptions for teacher confirmation.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-018 · Design a final performance task before planning daily lessons

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a final performance task before planning daily lessons.

COPY FROM HERE

Design a final performance task before planning daily lessons.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [FINAL_OBJECTIVE: supply verified information; do not leave blank]
- [AUTHENTIC_CONTEXT: supply verified information; do not leave blank]
- [PRODUCT_LIMITS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Specify the final task, criteria and acceptable evidence before activities. Separate subject learning from presentation or decoration.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-019 · Create a coherent lesson sequence from an approved assessment

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a coherent lesson sequence from an approved assessment.

COPY FROM HERE

Create a coherent lesson sequence from an approved assessment.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [APPROVED_ASSESSMENT: supply verified information; do not leave blank]
- [TEACHING_DAYS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Map assessment demands backward into daily learning. Flag objectives not represented in the assessment instead of silently adding scored content.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-020 · Place formative checkpoints and reteaching decisions across a unit

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to place formative checkpoints and reteaching decisions across a unit.

COPY FROM HERE

Place formative checkpoints and reteaching decisions across a unit.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [UNIT_SEQUENCE: supply verified information; do not leave blank]
- [CHECKPOINT_EVIDENCE: supply verified information; do not leave blank]
- [RESPONSE_OPTIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Place checkpoints before dependent learning. For each response pattern propose a teacher-adjustable reteaching decision, not a universal percentage rule.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-021 · Audit a unit for gaps, repetition and cognitive progression

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a unit for gaps, repetition and cognitive progression.

COPY FROM HERE

Audit a unit for gaps, repetition and cognitive progression.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [UNIT_MAP: supply verified information; do not leave blank]
- [STANDARDS: supply verified information; do not leave blank]
- [ASSESSMENTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

List uncovered objectives, repeated demands and unsupported jumps. Explain when repetition is purposeful retrieval rather than unnecessary duplication.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-022 · Shorten a unit while protecting its essential learning

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to shorten a unit while protecting its essential learning.

COPY FROM HERE

Shorten a unit while protecting its essential learning.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL_UNIT: supply verified information; do not leave blank]
- [REMAINING_DAYS: supply verified information; do not leave blank]
- [NONNEGOTIABLE_GOALS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Rank essential and optional learning, then propose cuts. State explicitly which goals can no longer be claimed as taught or assessed.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-023 · Add transfer and reflection to the end of a unit

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to add transfer and reflection to the end of a unit.

COPY FROM HERE

Add transfer and reflection to the end of a unit.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [COMPLETED_UNIT: supply verified information; do not leave blank]
- [TRANSFER_CONTEXT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create a new-context problem plus reflection questions linking strategy to evidence. Do not treat confidence ratings as proof of mastery.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-024 · Separate knowledge, skill and reasoning within a standard

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to separate knowledge, skill and reasoning within a standard.

COPY FROM HERE

Separate knowledge, skill and reasoning within a standard.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [VERBATIM_STANDARD: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Separate knowledge, performance and reasoning demands. Explain overlaps instead of forcing every phrase into only one category.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-025 · Rewrite a technical objective as a student-friendly I-can statement

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to rewrite a technical objective as a student-friendly I-can statement.

COPY FROM HERE

Rewrite a technical objective as a student-friendly I-can statement.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TECHNICAL_OBJECTIVE: supply verified information; do not leave blank]
- [LEARNER_AGE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write an accessible I-can statement and explain any technical term that must remain. Preserve the original cognitive demand.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-026 · Create observable success criteria for an existing objective

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create observable success criteria for an existing objective.

COPY FROM HERE

Create observable success criteria for an existing objective.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE: supply verified information; do not leave blank]
- [EXEMPLAR_OR_CRITERIA: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Produce observable success criteria, a matching example and a near miss.
Avoid vague descriptors such as good or excellent.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-027 · Check whether an activity truly aligns to a supplied standard

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to check whether an activity truly aligns to a supplied standard.

COPY FROM HERE

Check whether an activity truly aligns to a supplied standard.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ACTIVITY: supply verified information; do not leave blank]
- [EXACT_STANDARD: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Return evidence-for/evidence-against alignment and a minimal repair. Do not declare alignment from shared vocabulary alone.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-028 · Map several objectives into a logical teaching order

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to map several objectives into a logical teaching order.

COPY FROM HERE

Map several objectives into a logical teaching order.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE_LIST: supply verified information; do not leave blank]
- [PRIOR_LEARNING: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Order objectives by genuine prerequisite dependencies. Explain which can run in parallel and flag uncertain dependencies.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-029 · Identify prerequisite skills without lowering the grade-level target

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to identify prerequisite skills without lowering the grade-level target.

COPY FROM HERE

Identify prerequisite skills without lowering the grade-level target.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [GRADE_LEVEL_TARGET: supply verified information; do not leave blank]
- [CURRENT_EVIDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Identify missing prerequisite moves and just-in-time support while preserving access to the target. Avoid a permanent remedial track.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-030 · Write evidence statements showing what mastery would look like

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write evidence statements showing what mastery would look like.

COPY FROM HERE

Write evidence statements showing what mastery would look like.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE: supply verified information; do not leave blank]
- [ACCEPTABLE_RESPONSE_MODES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write examples of secure, partial and insufficient evidence with reasons. Separate what was observed from what remains unmeasured.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-031 · Design a warm-up that exposes prior knowledge in five minutes

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a warm-up that exposes prior knowledge in five minutes.

COPY FROM HERE

Design a warm-up that exposes prior knowledge in five minutes.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PREVIOUSLY_TAUGHT_CONTENT: supply verified information; do not leave blank]
- [FIVE_MINUTE_LIMIT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Use no more than three short diagnostic tasks and provide the key. State how each response changes the opening teacher move.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-032 · Write a misconception-revealing hinge question

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write a misconception-revealing hinge question.

COPY FROM HERE

Write a misconception-revealing hinge question.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ONE_MISCONCEPTION: supply verified information; do not leave blank]
- [RESPONSE_METHOD: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write one hinge item with mutually distinguishable options. Map each wrong option to a tentative explanation and a follow-up question.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-033 · Create an exit ticket with secure, developing and not-yet response bands

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create an exit ticket with secure, developing and not-yet response bands.

COPY FROM HERE

Create an exit ticket with secure, developing and not-yet response bands.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE: supply verified information; do not leave blank]
- [EXIT_MINUTES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Give an exit item and three annotated response examples. Define response bands by evidence, not learner labels.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-034 · Turn yesterday's exit-ticket patterns into today's opening task

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to turn yesterday's exit-ticket patterns into today's opening task.

COPY FROM HERE

Turn yesterday's exit-ticket patterns into today's opening task.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [YESTERDAY_AGGREGATE_PATTERNS: supply verified information; do not leave blank]
- [TODAY_OBJECTIVE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Choose an opening that addresses the observed error. Include one new check to see whether the adjustment helped.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-035 · Build a retrieval-practice warm-up without introducing new content

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a retrieval-practice warm-up without introducing new content.

COPY FROM HERE

Build a retrieval-practice warm-up without introducing new content.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TAUGHT_CONTENT: supply verified information; do not leave blank]
- [LAST_PRACTISED_DATES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Select retrieval questions across previous learning and supply corrective feedback. Do not introduce new content or grade forgetting as effort.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-036 · Create a transfer exit ticket that cannot be answered by copying

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a transfer exit ticket that cannot be answered by copying.

COPY FROM HERE

Create a transfer exit ticket that cannot be answered by copying.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TAUGHT_EXAMPLE: supply verified information; do not leave blank]
- [NEW_CONTEXT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Change the surface context while preserving the underlying principle.
Explain why successful transfer needs reasoning rather than copied wording.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-037 · Audit an exit ticket for alignment, ambiguity and reading load

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit an exit ticket for alignment, ambiguity and reading load.

COPY FROM HERE

Audit an exit ticket for alignment, ambiguity and reading load.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [EXISTING_EXIT_TICKET: supply verified information; do not leave blank]
- [OBJECTIVE: supply verified information; do not leave blank]
- [TIME_LIMIT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Audit every item for ambiguity, reading load and decision value. Return a shortened corrected version and answer guide.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-038 · Build a realistic minute-by-minute lesson timeline

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a realistic minute-by-minute lesson timeline.

COPY FROM HERE

Build a realistic minute-by-minute lesson timeline.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SEGMENTS: supply verified information; do not leave blank]
- [TOTAL_MINUTES: supply verified information; do not leave blank]
- [TRANSITION_COSTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Calculate a complete timeline including distribution and collection.

Provide a buffer and a final total equal to the available time.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.

- [GOAL: the learning or communication purpose]
- [DISCUSSION_GOAL: supply verified information; do not leave blank]
- [TIME_REMAINING: supply verified information; do not leave blank]
- [ESSENTIAL_EXIT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Give a respectful closing script and parking-lot method. Preserve the final evidence task instead of letting discussion consume it.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-042 · Plan meaningful early-finisher work connected to the objective

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan meaningful early-finisher work connected to the objective.

COPY FROM HERE

Plan meaningful early-finisher work connected to the objective.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CORE_TASK: supply verified information; do not leave blank]
- [EARLY_FINISHER_TIME: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create an optional depth challenge linked to the objective, with self-check guidance. Avoid more of the same work as a penalty.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-043 · Adapt one lesson for both a regular period and a shortened schedule

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to adapt one lesson for both a regular period and a shortened schedule.

COPY FROM HERE

Adapt one lesson for both a regular period and a shortened schedule.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [REGULAR_MINUTES: supply verified information; do not leave blank]
- [SHORTENED_MINUTES: supply verified information; do not leave blank]
- [CORE_EVIDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Return two complete schedules with matching core learning evidence. State precisely which optional activity changes.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-044 · Build an emergency no-print lesson from materials already in the room

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build an emergency no-print lesson from materials already in the room.

COPY FROM HERE

Build an emergency no-print lesson from materials already in the room.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ROOM_MATERIALS: supply verified information; do not leave blank]
- [NO_PRINT_LIMIT: supply verified information; do not leave blank]
- [OBJECTIVE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Design board-based directions and a paper response task requiring no new copies. Include collection and an answer guide.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-045 · Write exact substitute directions that require no subject guessing

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write exact substitute directions that require no subject guessing.

COPY FROM HERE

Write exact substitute directions that require no subject guessing.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SUBSTITUTE_EXPERTISE: supply verified information; do not leave blank]
- [STUDENT_TASK: supply verified information; do not leave blank]
- [LOCAL_ROUTINES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write verbatim directions and worked answers a non-specialist can use. Escalate unknown content or procedures rather than requiring improvisation.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-046 · Create a technology-failure backup for a digital lesson

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a technology-failure backup for a digital lesson.

COPY FROM HERE

Create a technology-failure backup for a digital lesson.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [DIGITAL_LESSON: supply verified information; do not leave blank]
- [OFFLINE_MATERIALS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

List each digital dependency and its offline replacement. Preserve the objective and name any evidence that cannot be collected offline.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-047 · Prepare an independent catch-up lesson for an unexpected absence

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to prepare an independent catch-up lesson for an unexpected absence.

COPY FROM HERE

Prepare an independent catch-up lesson for an unexpected absence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [MISSED_LEARNING: supply verified information; do not leave blank]
- [AVAILABLE_HOME_RESOURCES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create a short self-contained catch-up sequence with a model, practice and return check. Do not assume adult help or internet access.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-048 · Audit a substitute plan for safety, clarity and collection procedures

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a substitute plan for safety, clarity and collection procedures.

COPY FROM HERE

Audit a substitute plan for safety, clarity and collection procedures.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SUBSTITUTE_DRAFT: supply verified information; do not leave blank]
- [VERIFIED_LOCAL_PROCEDURES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Audit supervision, movement, collection and emergency placeholders. Block use until critical safety details are completed locally.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-049 · Launch a project with a clear driving question and final product

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to launch a project with a clear driving question and final product.

COPY FROM HERE

Launch a project with a clear driving question and final product.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PROJECT_GOAL: supply verified information; do not leave blank]
- [AUDIENCE: supply verified information; do not leave blank]
- [PRODUCT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write a driving question, launch scenario and final evidence criteria.

Distinguish an authentic problem from merely decorating a poster.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-050 · Connect two subjects around one authentic problem

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to connect two subjects around one authentic problem.

COPY FROM HERE

Connect two subjects around one authentic problem.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TWO_SUBJECT_OBJECTIVES: supply verified information; do not leave blank]
- [SHARED_PROBLEM: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Map each subject to distinct evidence within one project. Flag decorative connections that do not assess either subject's learning.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-051 · Break a multiweek project into milestones and checkpoints

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to break a multiweek project into milestones and checkpoints.

COPY FROM HERE

Break a multiweek project into milestones and checkpoints.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PROJECT_DURATION: supply verified information; do not leave blank]
- [FINAL_PRODUCT: supply verified information; do not leave blank]
- [CHECKPOINTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Build milestones with dependencies and recovery actions. Include teacher feedback before irreversible final-production work.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-052 · Create individual accountability inside a group project

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create individual accountability inside a group project.

COPY FROM HERE

Create individual accountability inside a group project.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [GROUP_PRODUCT: supply verified information; do not leave blank]
- [INDIVIDUAL_OBJECTIVES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Specify individual reasoning records, rotating roles and a brief independent check. Do not infer individual mastery from the group product.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-053 · Design a project rubric that measures learning rather than decoration

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a project rubric that measures learning rather than decoration.

COPY FROM HERE

Design a project rubric that measures learning rather than decoration.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PROJECT_OBJECTIVES: supply verified information; do not leave blank]
- [SCORING_WEIGHTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create criteria that measure content and reasoning. Score decoration only when design itself is an explicit taught objective.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-054 · Plan a public-product option that protects student privacy

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan a public-product option that protects student privacy.

COPY FROM HERE

Plan a public-product option that protects student privacy.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PROPOSED_AUDIENCE: supply verified information; do not leave blank]
- [SHARING_POLICY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Offer private in-class and permission-dependent public routes with equal academic credit. Exclude identifiable work from public AI prompts.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-055 · Turn lesson evidence into a next-day adjustment

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to turn lesson evidence into a next-day adjustment.

COPY FROM HERE

Turn lesson evidence into a next-day adjustment.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [LESSON_EVIDENCE: supply verified information; do not leave blank]
- [NEXT_DAY_TIME: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Separate what worked, what remains uncertain and one priority adjustment. Pair the adjustment with a new evidence check.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-056 · Write a post-lesson reflection based on observations rather than feelings alone

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write a post-lesson reflection based on observations rather than feelings alone.

COPY FROM HERE

Write a post-lesson reflection based on observations rather than feelings alone.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBSERVATION_NOTES: supply verified information; do not leave blank]
- [INTENDED_GOAL: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write observation, interpretation and next action separately. Avoid attributing outcomes to motivation without supporting evidence.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-057 · Identify what to keep, change and investigate after a lesson

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to identify what to keep, change and investigate after a lesson.

COPY FROM HERE

Identify what to keep, change and investigate after a lesson.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [LESSON_ARTIFACTS: supply verified information; do not leave blank]
- [RESPONSE_PATTERNS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Return keep/change/investigate decisions, each tied to a supplied observation. Keep unresolved hypotheses visible.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-058 · Adapt a lesson after most learners miss the same misconception

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to adapt a lesson after most learners miss the same misconception.

COPY FROM HERE

Adapt a lesson after most learners miss the same misconception.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [COMMON_ERROR: supply verified information; do not leave blank]
- [ORIGINAL_EXPLANATION: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Offer an alternative representation and a contrasting example. Recheck the misconception without repeating the identical assessment item.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-059 · Plan targeted follow-up for three anonymous response patterns

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan targeted follow-up for three anonymous response patterns.

COPY FROM HERE

Plan targeted follow-up for three anonymous response patterns.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [THREE_RESPONSE_PATTERNS: supply verified information; do not leave blank]
- [SUPPORT_TIME: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create one brief follow-up per pattern and a common reassessment. Group temporarily by evidence, not presumed ability.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

LP-060 · Compare the intended lesson with what learners actually demonstrated

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to compare the intended lesson with what learners actually demonstrated.

COPY FROM HERE

Compare the intended lesson with what learners actually demonstrated.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [INTENDED_PLAN: supply verified information; do not leave blank]
- [ACTUAL_EVIDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Compare intended and observed learning side by side. Distinguish implementation differences from evidence of student understanding.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.
