

Chapter 3 — Assessment, Rubrics and Quizzes

40 prompts

A good question does more than sort right from wrong — it tells you **what** the student misunderstood. These prompts are built around that: distractors that mean something, rubrics a student can act on, and checks that separate real understanding from copying the method.

What's in here

Group	Prompts	Use when
Quizzes and tests	10	A full assessment with a key
Formative checks and exit tickets	8	Finding out today, not next week
Rubrics	8	Marking that is fair and fast
Diagnosis and misconceptions	6	You know they are stuck; where exactly
Answer keys and feedback	4	Comments that change what they do next
Standards-based grading	4	Reporting against standards

Worth knowing before you start

Check the maths and the facts yourself. This is the chapter where an unverified error reaches a student's grade. The model will confidently produce a wrong answer key.

Ask for what each wrong option reveals. That turns marking into diagnosis and costs you nothing extra.

Single-point rubrics — one column of what proficient looks like — are faster to write and far faster to mark than a full grid. Several prompts here use them.

Every prompt in this chapter

Quizzes And Tests

ID	Prompt	Grades
AS-001	Create a balanced classroom assessment	3-5, 6-8, 9-12
AS-005	Build a short quiz across recall, application and reasoning	3-5, 6-8, 9-12
AS-006	Write diagnostic multiple-choice questions with purposeful distractors	3-5, 6-8, 9-12
AS-007	Create a constructed-response assessment with a scoring guide	3-5, 6-8, 9-12
AS-008	Design a pre-assessment that separates prerequisite and grade-level skills	3-5, 6-8, 9-12
AS-009	Build a cumulative assessment without over-weighting recent lessons	3-5, 6-8, 9-12
AS-010	Adapt an assessment for a shorter testing period	3-5, 6-8, 9-12
AS-011	Create parallel assessment forms with equivalent demand	3-5, 6-8, 9-12
AS-012	Audit a test for alignment, ambiguity and answer-key errors	3-5, 6-8, 9-12

AS-013	Turn a supplied objective list into a complete assessment blueprint	3-5, 6-8, 9-12
--------	---	----------------

Formative Checks And Exit Tickets

ID	Prompt	Grades
AS-002	Create hinge questions for live teaching	3-5, 6-8, 9-12
AS-014	Build a five-minute check for understanding during instruction	3-5, 6-8, 9-12
AS-015	Write an exit ticket that distinguishes three levels of understanding	3-5, 6-8, 9-12
AS-016	Create a misconception poll with actionable response options	3-5, 6-8, 9-12
AS-017	Design a show-me task using mini-whiteboards or paper	3-5, 6-8, 9-12
AS-018	Turn anonymous responses into a next-day formative check	3-5, 6-8, 9-12
AS-019	Create a transfer question that reveals reasoning rather than recall	3-5, 6-8, 9-12
AS-020	Audit a formative check for speed, reading load and decision usefulness	3-5, 6-8, 9-12

Rubrics

ID	Prompt	Grades
AS-003	Build a student-readable analytic rubric	3-5, 6-8, 9-12
AS-021	Create observable descriptors for four performance levels	3-5, 6-8, 9-12
AS-022	Turn an objective and task into aligned rubric criteria	3-5, 6-8, 9-12
AS-023	Build a single-point rubric with feedback space	3-5, 6-8, 9-12

AS-024	Create a rubric for collaborative work with individual evidence	3-5, 6-8, 9-12
AS-025	Rewrite vague rubric words as observable evidence	3-5, 6-8, 9-12
AS-026	Calibrate a rubric using fictional work samples	3-5, 6-8, 9-12
AS-027	Audit a rubric for double penalties, bias and irrelevant criteria	3-5, 6-8, 9-12

Diagnosis And Misconceptions

ID	Prompt	Grades
AS-004	Diagnose errors from anonymous work	3-5, 6-8, 9-12
AS-028	Code anonymous responses by misconception rather than score alone	3-5, 6-8, 9-12
AS-029	Build flexible reteaching groups from response patterns	3-5, 6-8, 9-12
AS-030	Distinguish a careless slip from a conceptual misunderstanding	3-5, 6-8, 9-12
AS-031	Create targeted mini-tasks for three misconception groups	3-5, 6-8, 9-12
AS-032	Plan a reassessment that shows whether reteaching worked	3-5, 6-8, 9-12

Answer Keys And Feedback

ID	Prompt	Grades
AS-033	Create a complete worked answer key from verified questions	3-5, 6-8, 9-12
AS-034	Write actionable feedback matched to common response patterns	3-5, 6-8, 9-12
AS-035	Audit an answer key for mathematical, factual and scoring errors	3-5, 6-8, 9-12

AS-036	Create learner-friendly solution explanations without hiding reasoning	3-5, 6-8, 9-12
--------	--	----------------

Standards Based Grading

ID	Prompt	Grades
AS-037	Map assessment evidence to supplied standards and objectives	3-5, 6-8, 9-12
AS-038	Create a standards-based proficiency scale with observable evidence	3-5, 6-8, 9-12
AS-039	Summarize class mastery without averaging unrelated skills	3-5, 6-8, 9-12
AS-040	Audit a standards-based grade summary for missing or weak evidence	3-5, 6-8, 9-12

AS-001 · Create a balanced classroom assessment

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a balanced classroom assessment.

[COPY FROM HERE](#)

Create a balanced classroom assessment.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVES: supply verified information; do not leave blank]
- [ITEM_COUNT: supply verified information; do not leave blank]
- [TIME: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Build an assessment blueprint before items. Verify solutions and distinguish diagnostic classroom use from validated high-stakes measurement.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Items: $x-9=-4$ (1 point); $4(y-3)=20$ (2); explain $6x+4=2(3x+2)$ (3); check $x=3$ in $2x+1=7$ (2).
Key: $x=5$; $y=8$; identity true for every x ; $7=7$. Partial credit: credit a valid transformation separately from final arithmetic where appropriate. Coverage: solve, distribute, explain identity, verify. This is a compact excerpt; it does not claim psychometric validation.

AS-002 · Create hinge questions for live teaching

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create hinge questions for live teaching.

COPY FROM HERE

Create hinge questions for live teaching.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CONCEPT: supply verified information; do not leave blank]
- [KNOWN_ERRORS: supply verified information; do not leave blank]
- [RESPONSE_METHOD: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write concept-discriminating questions with distractor explanations. Offer adjustable next-step rules, not an evidence-free mastery cutoff.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Question: After sugar dissolves in a sealed container, the total mass is A lower, B the same, C higher. Key: B, assuming nothing enters or leaves. A may suggest that invisibility means disappearance; ask for reasoning before assigning that interpretation. Follow-up: Where is the sugar now? Expected: dispersed in the water, not destroyed. Teacher must distinguish evidence from guesses based on a single selected option.

AS-003 · Build a student-readable analytic rubric

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

A complex product needs transparent, observable criteria.

COPY FROM HERE

Build a student-readable analytic rubric.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TASK: supply verified information; do not leave blank]
- [CRITERIA: supply verified information; do not leave blank]
- [PERFORMANCE_LEVELS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create observable descriptors for every cell, score calculation and two calibration samples. Avoid double penalties for one error.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Criteria: feeding links, direction of arrows, causal explanation, use of supplied evidence.

For causal explanation: 4 links direct and indirect effects with conditions; 3 explains one valid chain with a minor gap; 2 identifies an effect without linking mechanism; 1 supplies no defensible causal link. Apply equivalent observable descriptors to other criteria. Maximum

4 per criterion, total 16. Avoid deducting the same reversed arrow again unless it independently changes the explanation.

AS-004 · Diagnose errors from anonymous work

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

You have non-identifying student responses and need instructional patterns.

COPY FROM HERE

Diagnose errors from anonymous work.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TASK: supply verified information; do not leave blank]
- [CORRECT_ANSWER: supply verified information; do not leave blank]
- [ANONYMOUS_RESPONSES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Preserve response text and code only visible errors. State alternative explanations and the follow-up question needed before grouping.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

A: correct comparison with common-whole evidence; verify that $\frac{3}{4} = \frac{9}{12}$ and $\frac{5}{6} = \frac{10}{12}$.

B: possible confusion between unit-piece size and total fraction; ask for a diagram before assigning a stable misconception. C: insufficient evidence, not a misconception code.

Follow-up task: compare $\frac{2}{3}$ and $\frac{3}{4}$ using equal strips. Key: $\frac{3}{4}$ is larger because $\frac{9}{12}$ exceeds $\frac{8}{12}$.

AS-005 · Build a short quiz across recall, application and reasoning

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a short quiz across recall, application and reasoning.

COPY FROM HERE

Build a short quiz across recall, application and reasoning.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [RECALL_APPLICATION_REASONING_COUNTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Allocate items to the supplied balance and explain each classification. Include a key and check total points and timing.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.

- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Recall: state the inverse of adding 7 (1 point). Application: solve $2x+7=15$ (2). Reasoning: explain why adding the same number to both sides preserves equality (3). Keys: subtracting 7; $x=4$; equal quantities remain equal after the same addition. The explanation item requires reasoning, not just more words. Total six points; teacher checks local scoring expectations.

AS-006 · Write diagnostic multiple-choice questions with purposeful distractors

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write diagnostic multiple-choice questions with purposeful distractors.

COPY FROM HERE

Write diagnostic multiple-choice questions with purposeful distractors.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [MISCONCEPTIONS: supply verified information; do not leave blank]
- [CHOICE_COUNT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Give one defensible correct answer per item and plausible distinct distractors. Avoid unintended grammar or option-length clues.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Options: A $3x+2=15$; B $3x+6=15$; C $x+6=15$; D $3x+6=45$. Correct: B. A omits multiplying the constant; C omits multiplying x ; D changes the right side without a corresponding equivalent operation. Solve after selecting: $3x=9$, $x=3$. A choice suggests a possible error pattern; an explanation is needed to confirm it.

AS-007 · Create a constructed-response assessment with a scoring guide

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a constructed-response assessment with a scoring guide.

COPY FROM HERE

Create a constructed-response assessment with a scoring guide.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE: supply verified information; do not leave blank]
- [POINTS: supply verified information; do not leave blank]
- [EXPECTED_REASONING: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write constructed-response items, worked answers and partial-credit rules. State acceptable alternative methods and boundary cases.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Task: find the second quantity and justify. Key: scale factor 4, so second quantity 12.

Award one point for recognizing multiplicative scaling, one for factor 4, one for 12 and one for a valid explanation or equivalent table. Accept unit-rate reasoning. Example partial response 8:9 from adding 6 to both parts does not preserve ratio and receives no scaling points.

AS-008 · Design a pre-assessment that separates prerequisite and grade-level skills

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a pre-assessment that separates prerequisite and grade-level skills.

COPY FROM HERE

Design a pre-assessment that separates prerequisite and grade-level skills.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PREREQUISITES: supply verified information; do not leave blank]
- [GRADE_TARGETS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Keep prerequisite and target evidence separate in reporting. Do not convert a pre-assessment into a fixed ability label.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Prerequisites: $-3+8=5$; $4x(-2)=-8$. Targets: $x+5=12$ gives 7; $2(x-1)=10$ gives 6. Report prerequisite evidence separately from equation evidence. If arithmetic errors obscure equation reasoning, collect a short explanation before concluding the target concept is absent. Do not convert this four-item snapshot into a fixed learner track.

AS-009 · Build a cumulative assessment without over-weighting recent lessons

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a cumulative assessment without over-weighting recent lessons.

COPY FROM HERE

Build a cumulative assessment without over-weighting recent lessons.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TAUGHT_UNITS: supply verified information; do not leave blank]
- [COVERAGE_WEIGHTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Sample across the taught period according to explicit weights. Flag missing coverage rather than overusing recently taught material.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-010 · Adapt an assessment for a shorter testing period

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to adapt an assessment for a shorter testing period.

COPY FROM HERE

Adapt an assessment for a shorter testing period.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL_TEST: supply verified information; do not leave blank]
- [NEW_TIME_LIMIT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Remove redundant items while preserving essential coverage. State the resulting loss of precision instead of claiming unchanged reliability.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-011 · Create parallel assessment forms with equivalent demand

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create parallel assessment forms with equivalent demand.

COPY FROM HERE

Create parallel assessment forms with equivalent demand.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [FORM_A: supply verified information; do not leave blank]
- [BLUEPRINT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create Form B with matched content, format and estimated demand. Label equivalence provisional until checked with real response evidence.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-012 · Audit a test for alignment, ambiguity and answer-key errors

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a test for alignment, ambiguity and answer-key errors.

COPY FROM HERE

Audit a test for alignment, ambiguity and answer-key errors.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TEST: supply verified information; do not leave blank]
- [KEY: supply verified information; do not leave blank]
- [OBJECTIVES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Independently solve each item, identify ambiguous keys and check point totals. Keep the original numbering in the correction log.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-013 · Turn a supplied objective list into a complete assessment blueprint

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to turn a supplied objective list into a complete assessment blueprint.

COPY FROM HERE

Turn a supplied objective list into a complete assessment blueprint.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE_LIST: supply verified information; do not leave blank]
- [WEIGHTS: supply verified information; do not leave blank]
- [ITEM_COUNT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Return a blueprint mapping every item slot to objective, demand, format and points. Flag objectives with no evidence.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-014 · Build a five-minute check for understanding during instruction

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a five-minute check for understanding during instruction.

COPY FROM HERE

Build a five-minute check for understanding during instruction.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CURRENT_CONCEPT: supply verified information; do not leave blank]
- [FIVE_MINUTES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Use a brief response plus reasoning probe and state immediate instructional choices. Avoid collecting more information than can be acted upon.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-015 · Write an exit ticket that distinguishes three levels of understanding

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write an exit ticket that distinguishes three levels of understanding.

COPY FROM HERE

Write an exit ticket that distinguishes three levels of understanding.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE: supply verified information; do not leave blank]
- [TIME_LIMIT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write one item with secure, partial and insufficient evidence examples.
Focus on scoring interpretation; refer to LP-033 for lesson placement.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-016 · Create a misconception poll with actionable response options

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a misconception poll with actionable response options.

COPY FROM HERE

Create a misconception poll with actionable response options.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [MISCONCEPTION_OPTIONS: supply verified information; do not leave blank]
- [RESPONSE_CHANNEL: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create a poll with one conceptual distinction per option. Follow uncertain patterns with an explanation request, not a learner diagnosis.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-017 · Design a show-me task using mini-whiteboards or paper

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design a show-me task using mini-whiteboards or paper.

COPY FROM HERE

Design a show-me task using mini-whiteboards or paper.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SKILL: supply verified information; do not leave blank]
- [MATERIALS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Ask for a visible model, calculation or arrangement simultaneously.

Include what the teacher should notice and a private alternative response mode.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-018 · Turn anonymous responses into a next-day formative check

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to turn anonymous responses into a next-day formative check.

COPY FROM HERE

Turn anonymous responses into a next-day formative check.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [PRIOR_RESPONSE_PATTERNS: supply verified information; do not leave blank]
- [RETEACH_CONTENT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write a fresh matched check that tests the same underlying misconception. Explain differences from the previous question.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-019 · Create a transfer question that reveals reasoning rather than recall

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a transfer question that reveals reasoning rather than recall.

COPY FROM HERE

Create a transfer question that reveals reasoning rather than recall.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TAUGHT_PRINCIPLE: supply verified information; do not leave blank]
- [NEW_CONTEXT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Require explanation of how the principle transfers. Include a near-transfer and a farther-transfer version with keys.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-020 · Audit a formative check for speed, reading load and decision usefulness

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a formative check for speed, reading load and decision usefulness.

COPY FROM HERE

Audit a formative check for speed, reading load and decision usefulness.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [FORMATIVE_CHECK: supply verified information; do not leave blank]
- [AVAILABLE_ACTIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Audit whether each response produces a usable decision within the lesson.
Remove reading complexity unrelated to the target.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-021 · Create observable descriptors for four performance levels

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create observable descriptors for four performance levels.

COPY FROM HERE

Create observable descriptors for four performance levels.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CRITERIA: supply verified information; do not leave blank]
- [EXEMPLARS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write four evidence-based descriptors per criterion. Ensure adjacent levels are distinguishable without words like often or excellent alone.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-022 · Turn an objective and task into aligned rubric criteria

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to turn an objective and task into aligned rubric criteria.

COPY FROM HERE

Turn an objective and task into aligned rubric criteria.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE: supply verified information; do not leave blank]
- [TASK: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Derive criteria from learning demands, not available rubric templates.
Show the objective-to-criterion mapping and remove irrelevant traits.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-023 · Build a single-point rubric with feedback space

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a single-point rubric with feedback space.

COPY FROM HERE

Build a single-point rubric with feedback space.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SUCCESS_CRITERIA: supply verified information; do not leave blank]
- [FEEDBACK_SPACE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create a single-point rubric with target descriptors and separate evidence below/beyond target. Do not disguise it as a four-level scale.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-024 · Create a rubric for collaborative work with individual evidence

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a rubric for collaborative work with individual evidence.

COPY FROM HERE

Create a rubric for collaborative work with individual evidence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [GROUP_TASK: supply verified information; do not leave blank]
- [INDIVIDUAL_TARGETS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Separate collaboration-process evidence from individual subject mastery.
Make each score traceable to the appropriate source.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-025 · Rewrite vague rubric words as observable evidence

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to rewrite vague rubric words as observable evidence.

COPY FROM HERE

Rewrite vague rubric words as observable evidence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [VAGUE_RUBRIC: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Replace vague cells with observable indicators while preserving the intended construct. Flag criteria that cannot be fairly observed.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-026 · Calibrate a rubric using fictional work samples

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to calibrate a rubric using fictional work samples.

COPY FROM HERE

Calibrate a rubric using fictional work samples.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [RUBRIC: supply verified information; do not leave blank]
- [FICTIONAL_SAMPLES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Score each sample criterion by criterion, cite evidence and show a borderline case. Ask reviewers to resolve disagreements before live scoring.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-027 · Audit a rubric for double penalties, bias and irrelevant criteria

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a rubric for double penalties, bias and irrelevant criteria.

COPY FROM HERE

Audit a rubric for double penalties, bias and irrelevant criteria.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [RUBRIC: supply verified information; do not leave blank]
- [ACCESS_REQUIREMENTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Check double penalties, language bias and irrelevant presentation demands. Propose narrowly targeted corrections, not an unexplained new rubric.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-028 · Code anonymous responses by misconception rather than score alone

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to code anonymous responses by misconception rather than score alone.

COPY FROM HERE

Code anonymous responses by misconception rather than score alone.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [RESPONSES: supply verified information; do not leave blank]
- [CODING_SCHEME: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Build a codebook with inclusion, exclusion and uncertain examples. Allow multiple codes and report denominators transparently.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-029 · Build flexible reteaching groups from response patterns

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build flexible reteaching groups from response patterns.

COPY FROM HERE

Build flexible reteaching groups from response patterns.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ERROR_FREQUENCIES: supply verified information; do not leave blank]
- [GROUP_CAPACITY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Build temporary instructional groups linked to specific tasks. Include a regrouping trigger and an unclassified-evidence category.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-030 · Distinguish a careless slip from a conceptual misunderstanding

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to distinguish a careless slip from a conceptual misunderstanding.

COPY FROM HERE

Distinguish a careless slip from a conceptual misunderstanding.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [WORK_SAMPLE: supply verified information; do not leave blank]
- [FOLLOWUP_OPPORTUNITY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Do not declare carelessness from one response. Offer competing explanations and a short think-aloud probe to distinguish them.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-031 · Create targeted mini-tasks for three misconception groups

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create targeted mini-tasks for three misconception groups.

COPY FROM HERE

Create targeted mini-tasks for three misconception groups.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [THREE_MISCONCEPTIONS: supply verified information; do not leave blank]
- [TEACHING_MINUTES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write a different model-and-practice mini-task for each misconception.
Finish with one common check of the shared goal.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-032 · Plan a reassessment that shows whether reteaching worked

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan a reassessment that shows whether reteaching worked.

COPY FROM HERE

Plan a reassessment that shows whether reteaching worked.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL_TARGET: supply verified information; do not leave blank]
- [RETEACHING_RECORD: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create fresh aligned reassessment items with solutions. Keep conditions comparable and avoid interpreting one retry as permanent mastery.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-033 · Create a complete worked answer key from verified questions

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a complete worked answer key from verified questions.

COPY FROM HERE

Create a complete worked answer key from verified questions.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [VERIFIED_QUESTIONS: supply verified information; do not leave blank]
- [SCORING_RULES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Solve every question fully and include alternative valid methods. Flag underspecified questions rather than inventing missing conditions.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-034 · Write actionable feedback matched to common response patterns

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write actionable feedback matched to common response patterns.

COPY FROM HERE

Write actionable feedback matched to common response patterns.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [RESPONSE_PATTERNS: supply verified information; do not leave blank]
- [FEEDBACK_LENGTH: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write feedback naming evidence, one actionable move and a retry question. Avoid personality praise or a list of unrelated corrections.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-035 · Audit an answer key for mathematical, factual and scoring errors

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit an answer key for mathematical, factual and scoring errors.

COPY FROM HERE

Audit an answer key for mathematical, factual and scoring errors.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [QUESTIONS: supply verified information; do not leave blank]
- [ANSWER_KEY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Recompute solutions and totals independently, then list item-level discrepancies. Do not use the existing key as proof of correctness.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-036 · Create learner-friendly solution explanations without hiding reasoning

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create learner-friendly solution explanations without hiding reasoning.

COPY FROM HERE

Create learner-friendly solution explanations without hiding reasoning.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [VERIFIED_SOLUTIONS: supply verified information; do not leave blank]
- [LEARNER_AGE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Explain why each step is valid and include a self-check. Preserve reasoning while simplifying vocabulary.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-037 · Map assessment evidence to supplied standards and objectives

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to map assessment evidence to supplied standards and objectives.

COPY FROM HERE

Map assessment evidence to supplied standards and objectives.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [EXACT_STANDARDS: supply verified information; do not leave blank]
- [ASSESSMENT_EVIDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Map only demonstrated evidence to standards. Mark partial, absent and incomparable evidence explicitly.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-038 · Create a standards-based proficiency scale with observable evidence

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a standards-based proficiency scale with observable evidence.

COPY FROM HERE

Create a standards-based proficiency scale with observable evidence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [STANDARD: supply verified information; do not leave blank]
- [LOCAL_PROFICIENCY_POLICY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Draft observable levels consistent with the supplied policy. Do not invent official grading thresholds or claim a validated scale.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-039 · Summarize class mastery without averaging unrelated skills

Grades 3-5, 6-8, 9-12 · Any subject

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to summarize class mastery without averaging unrelated skills.

COPY FROM HERE

Summarize class mastery without averaging unrelated skills.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBJECTIVE_LEVEL_DATA: supply verified information; do not leave blank]
- [MISSING_ENTRIES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Summarize each skill separately with denominators and missingness. Do not average unlike skills into a misleading mastery percentage.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

AS-040 · Audit a standards-based grade summary for missing or weak evidence

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a standards-based grade summary for missing or weak evidence.

COPY FROM HERE

Audit a standards-based grade summary for missing or weak evidence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [GRADE_SUMMARY: supply verified information; do not leave blank]
- [EVIDENCE_RULES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Trace every proficiency claim to evidence and flag sparse or contradictory records. Leave final grades to the authorized teacher.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
