

Chapter 4 — Differentiation and Mixed Ability

35 prompts

Differentiation fails when it becomes three separate lessons running in one room.

These prompts keep one destination and change the route: same objective, same final discussion, different ways in.

What's in here

Group	Prompts	Use when
Scaffolds	8	Same task, more support
Tiered tasks	7	Three versions, one objective
Multilingual support	6	Language load down, expectation unchanged
Reading and accessibility	6	The text is the barrier, not the idea
Extensions	4	Real work for early finishers
Flexible grouping	4	Who sits with whom, and why

Worth knowing before you start

Never name a student. Describe the need — "students reading about two years below grade level" — not the person.

Ask for neutral names for the routes. "Route A, B, C" works; anything that reads as a ranking will be decoded by the class within one lesson.

Push back if the extension is just more questions. Extension means harder

thinking, not extra volume, and several prompts here say so explicitly.

Whatever accommodation you supply must survive into the draft. Check that it did.

Every prompt in this chapter

Scaffolds

ID	Prompt	Grades
DF-001	Add temporary scaffolds without lowering the goal	All
DF-005	Turn an observed barrier into a targeted support plan	3-5, 6-8, 9-12
DF-006	Create a graphic organizer that preserves essential reasoning	3-5, 6-8, 9-12
DF-007	Write sentence frames at three levels of language support	3-5, 6-8, 9-12
DF-008	Break a complex task into checkpoints without doing the thinking	3-5, 6-8, 9-12
DF-009	Add worked examples and prompts with a clear fade plan	3-5, 6-8, 9-12
DF-010	Create a scaffold menu learners can choose from responsibly	3-5, 6-8, 9-12
DF-011	Audit classroom supports for dependence and hidden lower expectations	3-5, 6-8, 9-12

Tiered Tasks

ID	Prompt	Grades
DF-002	Create three routes to the same objective	3-5, 6-8, 9-12

DF-012	Build scaffolded, on-level and extension versions of one task	3-5, 6-8, 9-12
DF-013	Tier a task by representation rather than by easier content	3-5, 6-8, 9-12
DF-014	Create three entry points with one common mastery product	3-5, 6-8, 9-12
DF-015	Design tiered questions that move from access to transfer	3-5, 6-8, 9-12
DF-016	Check that every tier carries equal curricular dignity	3-5, 6-8, 9-12
DF-017	Create a whole-class debrief that reconnects three task versions	3-5, 6-8, 9-12

Multilingual Support

ID	Prompt	Grades
DF-003	Make a task accessible to multilingual learners	All
DF-018	Identify the language demands hidden inside a subject task	3-5, 6-8, 9-12
DF-019	Build an essential vocabulary preview with visuals and examples	3-5, 6-8, 9-12
DF-020	Create structured partner rehearsal before independent writing	3-5, 6-8, 9-12
DF-021	Plan purposeful home-language use without assuming proficiency	3-5, 6-8, 9-12
DF-022	Separate content evidence from English-language evidence	3-5, 6-8, 9-12

Reading And Accessibility

ID	Prompt	Grades
DF-004	Adapt text access while preserving meaning	3-5, 6-8, 9-12
DF-023	Chunk a demanding source without rewriting its claims	3-5, 6-8, 9-12
DF-024	Create a plain-language companion beside the original text	3-5, 6-8, 9-12
DF-025	Add glossary, guiding questions and audio-access suggestions	3-5, 6-8, 9-12

DF-026	Reduce unnecessary reading load in a non-reading assessment	3-5, 6-8, 9-12
DF-027	Audit adapted materials for lost meaning or unsupported simplification	3-5, 6-8, 9-12

Extensions

ID	Prompt	Grades
DF-028	Create an extension that deepens reasoning instead of adding more work	3-5, 6-8, 9-12
DF-029	Build a transfer challenge using a new context	3-5, 6-8, 9-12
DF-030	Design an open-ended investigation with clear evidence expectations	3-5, 6-8, 9-12
DF-031	Audit an extension for novelty, rigor and connection to the objective	3-5, 6-8, 9-12

Flexible Grouping

ID	Prompt	Grades
DF-032	Build temporary groups from anonymous learning evidence	3-5, 6-8, 9-12
DF-033	Create a rotation plan for three changing instructional needs	3-5, 6-8, 9-12
DF-034	Plan mixed-readiness groups with meaningful roles and accountability	3-5, 6-8, 9-12
DF-035	Audit a grouping plan for labels, access, movement and regrouping triggers	3-5, 6-8, 9-12

DF-001 · Add temporary scaffolds without lowering the goal

All grades · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Some learners need access support while keeping the same objective.

COPY FROM HERE

Add temporary scaffolds without lowering the goal.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [OBSERVED_BARRIER: supply verified information; do not leave blank]
- [UNCHANGED_GOAL: supply verified information; do not leave blank]
- [AVAILABLE_SUPPORT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Map a temporary scaffold to the observed barrier and define evidence for fading it. Do not replace the target reasoning with completed answers.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Keep the goal: explain matter inputs and products with light as energy. Support: colour-independent arrow labels and a frame, Water and carbon dioxide are used to... . Learner supplies the explanation. Fade the frame on the next diagram when the learner can

explain independently. Keep any required accommodation. Common check: identify one matter input and explain what light contributes.

DF-002 · Create three routes to the same objective

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

A mixed-readiness class needs different entry points and one shared destination.

COPY FROM HERE

Create three routes to the same objective.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [COMMON_GOAL: supply verified information; do not leave blank]
- [ACCESS_OPTIONS: supply verified information; do not leave blank]
- [CORE_EVIDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create three neutral-named routes with one common mastery check. Compare demand explicitly; do not assign routes by fixed ability labels.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Route Strips: show equal wholes with missing $\frac{1}{4}$ and $\frac{1}{6}$. Route Line: mark both values on equal 0-1 lines. Route Symbols: compare the missing unit fractions. All submit the same explanation: $\frac{5}{6}$ is closer to one because $\frac{1}{6}$ is smaller than $\frac{1}{4}$. Optional stretch: order $\frac{2}{3}$, $\frac{7}{8}$, $\frac{11}{12}$. Key: ascending as written. Do not publicly label routes by ability.

DF-003 · Make a task accessible to multilingual learners

All grades · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Language demands may hide subject understanding.

COPY FROM HERE

Make a task accessible to multilingual learners.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CONTENT_GOAL: supply verified information; do not leave blank]
- [LANGUAGE_DEMANDS: supply verified information; do not leave blank]
- [KNOWN_LANGUAGE_RESOURCES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Separate content from language demands. Provide vocabulary and rehearsal support without inferring proficiency from a home language.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Vocabulary: solid, liquid, heat, melt, freeze; teacher supplies a verified diagram. Rehearsal: describe the change using words, arrows or an approved home-language resource.

Frame: When ice gains heat, it changes from ___ to ___. Key: solid to liquid. Score the phase-change idea separately from sentence fluency where appropriate. A competent speaker checks any translation; do not infer language skills from a name.

DF-004 · Adapt text access while preserving meaning

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Learners need a more accessible route into a demanding source.

COPY FROM HERE

Adapt text access while preserving meaning.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [AUTHORIZED_TEXT: supply verified information; do not leave blank]
- [TARGET_CONSTRUCT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Keep original meaning visible beside an access adaptation. If reading itself is assessed, flag changes that would alter the construct.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Companion: The young plants drooped after several days without rain. The pots in shade lost less water. Preserve although by explaining the contrast. Glossary: wilted = drooped; moisture = water present. Keep the original next to the companion. Do not change the claim into all shaded plants survived; that result was not supplied. If reading complexity is the assessed construct, teacher review is required before adapting.

DF-005 · Turn an observed barrier into a targeted support plan

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to turn an observed barrier into a targeted support plan.

COPY FROM HERE

Turn an observed barrier into a targeted support plan.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [BARRIER_OBSERVATION: supply verified information; do not leave blank]
- [SUPPORTS_TRIED: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Distinguish observed obstacle from guessed cause. Propose one support, a trial duration and an observable independence check.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Hypothesis: task organization may be an access barrier; no diagnosis is implied. Trial support: number each step and let the learner tick completed lines. Measure whether the learner resumes accurately after a pause. Keep the same arithmetic and reasoning. After two successful attempts, try a shorter checklist and compare independence. Two attempts are an illustrative trial design, not a validated intervention threshold.

DF-006 · Create a graphic organizer that preserves essential reasoning

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a graphic organizer that preserves essential reasoning.

COPY FROM HERE

Create a graphic organizer that preserves essential reasoning.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [REASONING_STEPS: supply verified information; do not leave blank]
- [ORGANIZER_FORMAT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create an organizer that structures thinking but does not supply the conclusion. Explain which prompts can later be removed.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Organizer fields: My claim; Exact supplied evidence; Why this evidence matters; A limitation or alternative; Revised claim. Leave the claim and reasoning blank. Teacher model fills a separate fictional example, not the learner's assessed organizer. Fade the Why this matters question once the learner can independently link evidence to a claim. The organizer supports structure without providing the conclusion.

DF-007 · Write sentence frames at three levels of language support

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to write sentence frames at three levels of language support.

COPY FROM HERE

Write sentence frames at three levels of language support.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [LANGUAGE_FUNCTION: supply verified information; do not leave blank]
- [CONTENT_TARGET: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write light, medium and substantial sentence support for the same reasoning move. Leave the evidence and conclusion for the learner.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.

- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

Example — an editorial illustration, not a logged AI run

Light: Explain the pattern and its limitation. Medium: As ___ changed, ___ changed; this may suggest ___. Substantial: The measured temperature was ___ before and ___ after. One possible explanation is ___. We cannot yet conclude ___. Every route requires the same evidence-based inference. Do not fill measurement slots with invented numbers. Learners may move among supports without public labels.

DF-008 · Break a complex task into checkpoints without doing the thinking

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to break a complex task into checkpoints without doing the thinking.

COPY FROM HERE

Break a complex task into checkpoints without doing the thinking.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [COMPLEX_TASK: supply verified information; do not leave blank]
- [CHECKPOINT_COUNT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Chunk procedural demands while retaining the difficult thinking. Include a self-monitoring check at each boundary.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-009 · Add worked examples and prompts with a clear fade plan

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to add worked examples and prompts with a clear fade plan.

COPY FROM HERE

Add worked examples and prompts with a clear fade plan.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [WORKED_EXAMPLE: supply verified information; do not leave blank]
- [TARGET_INDEPENDENCE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Alternate model, incomplete example and independent attempt. Define a support-fade decision based on evidence, not a fixed learner category.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-010 · Create a scaffold menu learners can choose from responsibly

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a scaffold menu learners can choose from responsibly.

COPY FROM HERE

Create a scaffold menu learners can choose from responsibly.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [AVAILABLE_SCAFFOLDS: supply verified information; do not leave blank]
- [STUDENT_CHOICE_LIMITS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create a student-readable support menu with purpose and exit condition.
Keep supports available without public labels or penalties.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-011 · Audit classroom supports for dependence and hidden lower expectations

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit classroom supports for dependence and hidden lower expectations.

COPY FROM HERE

Audit classroom supports for dependence and hidden lower expectations.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CURRENT_SUPPORT_PLAN: supply verified information; do not leave blank]
- [OBSERVATIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Identify where adults or tools do the assessed thinking. Recommend one reduced-support trial while preserving required accommodations.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-012 · Build scaffolded, on-level and extension versions of one task

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build scaffolded, on-level and extension versions of one task.

COPY FROM HERE

Build scaffolded, on-level and extension versions of one task.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CORE_TASK: supply verified information; do not leave blank]
- [EXTENSION_GOAL: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Provide support, core and stretch routes with shared evidence. State that stretch is optional depth, not the only route to full credit.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-013 · Tier a task by representation rather than by easier content

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to tier a task by representation rather than by easier content.

COPY FROM HERE

Tier a task by representation rather than by easier content.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ALLOWED_REPRESENTATIONS: supply verified information; do not leave blank]
- [CORE_CONCEPT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Offer concrete, visual and symbolic routes. Verify that each requires the same conceptual decision rather than merely different decoration.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-014 · Create three entry points with one common mastery product

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create three entry points with one common mastery product.

COPY FROM HERE

Create three entry points with one common mastery product.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ENTRY_BARRIERS: supply verified information; do not leave blank]
- [COMMON_PRODUCT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Design three starting activities that converge on the same final task.
Include a bridge so entry support does not become a separate curriculum.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-015 · Design tiered questions that move from access to transfer

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design tiered questions that move from access to transfer.

COPY FROM HERE

Design tiered questions that move from access to transfer.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ACCESS_KNOWLEDGE: supply verified information; do not leave blank]
- [TRANSFER_TARGET: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Sequence questions from access to explanation to transfer. Keep every learner invited to higher-demand questions with needed support.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-016 · Check that every tier carries equal curricular dignity

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to check that every tier carries equal curricular dignity.

COPY FROM HERE

Check that every tier carries equal curricular dignity.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TIERED_TASK_SET: supply verified information; do not leave blank]
- [CRITERIA: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Compare challenge, dignity, choice and credit across routes. Flag a route that prevents learners from demonstrating the stated goal.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-017 · Create a whole-class debrief that reconnects three task versions

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a whole-class debrief that reconnects three task versions.

COPY FROM HERE

Create a whole-class debrief that reconnects three task versions.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [THREE_TASK_VERSIONS: supply verified information; do not leave blank]
- [SHARED_CONCEPT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Write a debrief that compares representations and reconnects every route. Include an individual synthesis question.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-018 · Identify the language demands hidden inside a subject task

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to identify the language demands hidden inside a subject task.

COPY FROM HERE

Identify the language demands hidden inside a subject task.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SUBJECT_TASK: supply verified information; do not leave blank]
- [RESPONSE_FORMAT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Identify vocabulary, syntax and discourse demands separately from subject knowledge. Select only supports relevant to the actual task.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-019 · Build an essential vocabulary preview with visuals and examples

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build an essential vocabulary preview with visuals and examples.

COPY FROM HERE

Build an essential vocabulary preview with visuals and examples.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ESSENTIAL_TERMS: supply verified information; do not leave blank]
- [SOURCE_CONTEXT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create plain definitions, text-described visuals, examples and non-examples. Require human review of translations and avoid invented etymology.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-020 · Create structured partner rehearsal before independent writing

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create structured partner rehearsal before independent writing.

COPY FROM HERE

Create structured partner rehearsal before independent writing.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [WRITING_GOAL: supply verified information; do not leave blank]
- [PARTNER_OPTIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Plan think, rehearse, listen and revise steps before writing. Offer private recorded or written rehearsal where speaking is inaccessible.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-021 · Plan purposeful home-language use without assuming proficiency

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan purposeful home-language use without assuming proficiency.

COPY FROM HERE

Plan purposeful home-language use without assuming proficiency.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [AVAILABLE_LANGUAGE_RESOURCES: supply verified information; do not leave blank]
- [LEARNER_CHOICE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Allow purposeful home-language thinking without assuming literacy or translation accuracy. Keep the final content evidence criteria explicit.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-022 · Separate content evidence from English-language evidence

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to separate content evidence from English-language evidence.

COPY FROM HERE

Separate content evidence from English-language evidence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CONTENT_CRITERIA: supply verified information; do not leave blank]
- [LANGUAGE_CRITERIA: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Score content evidence and language evidence separately where policy permits. Do not equate limited English output with limited subject understanding.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-023 · Chunk a demanding source without rewriting its claims

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to chunk a demanding source without rewriting its claims.

COPY FROM HERE

Chunk a demanding source without rewriting its claims.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [AUTHORIZED_SOURCE: supply verified information; do not leave blank]
- [CHUNK_BOUNDARIES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Chunk by meaning, keep source order and label omissions. Preserve qualifiers and uncertainty in every extracted section.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-024 · Create a plain-language companion beside the original text

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a plain-language companion beside the original text.

COPY FROM HERE

Create a plain-language companion beside the original text.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL_TEXT: supply verified information; do not leave blank]
- [TARGET_READING_ACCESS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Place a plain-language companion beside the source. Flag simplifications that lose technical meaning and avoid claiming identical reading difficulty.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-025 · Add glossary, guiding questions and audio-access suggestions

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to add glossary, guiding questions and audio-access suggestions.

COPY FROM HERE

Add glossary, guiding questions and audio-access suggestions.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [SOURCE: supply verified information; do not leave blank]
- [GLOSSARY_NEEDS: supply verified information; do not leave blank]
- [AUDIO_OPTIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Add an essential glossary and guiding questions. Describe approved audio access without uploading protected texts or learner recordings.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-026 · Reduce unnecessary reading load in a non-reading assessment

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to reduce unnecessary reading load in a non-reading assessment.

COPY FROM HERE

Reduce unnecessary reading load in a non-reading assessment.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ASSESSMENT: supply verified information; do not leave blank]
- [TARGET_CONSTRUCT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Reduce incidental reading only when reading is not the assessed skill.
Document changes and preserve required technical vocabulary.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-027 · Audit adapted materials for lost meaning or unsupported simplification

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit adapted materials for lost meaning or unsupported simplification.

COPY FROM HERE

Audit adapted materials for lost meaning or unsupported simplification.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ORIGINAL: supply verified information; do not leave blank]
- [ADAPTATION: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Compare claims, qualifiers and evidence sentence by sentence. Restore lost meaning and label any unresolved interpretation.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-028 · Create an extension that deepens reasoning instead of adding more work

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create an extension that deepens reasoning instead of adding more work.

COPY FROM HERE

Create an extension that deepens reasoning instead of adding more work.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [CORE_OBJECTIVE: supply verified information; do not leave blank]
- [AVAILABLE_TIME: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create an extension requiring explanation, generalization or evaluation.
Avoid more routine items or extra work as a reward for finishing.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-029 · Build a transfer challenge using a new context

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build a transfer challenge using a new context.

COPY FROM HERE

Build a transfer challenge using a new context.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [TAUGHT_CONTEXT: supply verified information; do not leave blank]
- [NEW_CONTEXT: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Design a transfer challenge with one meaningful changed condition. Provide a key explaining what transfers and what does not.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-030 · Design an open-ended investigation with clear evidence expectations

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to design an open-ended investigation with clear evidence expectations.

COPY FROM HERE

Design an open-ended investigation with clear evidence expectations.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [INVESTIGABLE_QUESTION: supply verified information; do not leave blank]
- [EVIDENCE_LIMITS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Define an open investigation with bounded resources, evidence expectations and several defensible outcomes. Do not invent observations.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-031 · Audit an extension for novelty, rigor and connection to the objective

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit an extension for novelty, rigor and connection to the objective.

COPY FROM HERE

Audit an extension for novelty, rigor and connection to the objective.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [EXTENSION_TASK: supply verified information; do not leave blank]
- [CORE_OBJECTIVE: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Audit whether the challenge deepens the same learning. Replace novelty that is unrelated or dependent on expensive home resources.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-032 · Build temporary groups from anonymous learning evidence

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to build temporary groups from anonymous learning evidence.

COPY FROM HERE

Build temporary groups from anonymous learning evidence.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [ANONYMOUS_PATTERNS: supply verified information; do not leave blank]
- [CAPACITY: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Group by current task needs with private neutral labels. Include an unassigned category when evidence is insufficient.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-033 · Create a rotation plan for three changing instructional needs

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to create a rotation plan for three changing instructional needs.

COPY FROM HERE

Create a rotation plan for three changing instructional needs.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [THREE_NEEDS: supply verified information; do not leave blank]
- [ROTATION_MINUTES: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Create a feasible teacher-attention schedule and independent work for other groups. State transition and regrouping rules.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-034 · Plan mixed-readiness groups with meaningful roles and accountability

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to plan mixed-readiness groups with meaningful roles and accountability.

COPY FROM HERE

Plan mixed-readiness groups with meaningful roles and accountability.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [MIXED_GROUP_TASK: supply verified information; do not leave blank]
- [ROLE_OPTIONS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Give every learner a reasoning role and independent evidence. Do not make one learner the permanent tutor or scribe.

Output:

Return the named artifact with all questions, directions, examples or text needed for the task; put teacher keys and notes separately from student/family-facing text.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
- Answers and subject content checked independently; access and local policy preserved.
- No identifying or sensitive records were shared; final recipient/content checked locally.

DF-035 · Audit a grouping plan for labels, access, movement and regrouping triggers

Grades 3-5, 6-8, 9-12 · Any subject

Handle with care. Read the safety page before using this one.

WHEN YOU NEED THIS

Choose this focused tool when your immediate task is to audit a grouping plan for labels, access, movement and regrouping triggers.

COPY FROM HERE

Audit a grouping plan for labels, access, movement and regrouping triggers.

Required inputs:

- [GRADE_SUBJECT: exact age/grade and subject]
- [GOAL: the learning or communication purpose]
- [GROUP_PLAN: supply verified information; do not leave blank]
- [ACCESS_CONSTRAINTS: supply verified information; do not leave blank]
- [CONSTRAINTS: duration, format, resources and approved access requirements; write none only if confirmed]

Specific requirements:

Check isolation, labelling, movement and regrouping triggers. Keep accommodation details in approved local records, not public prompts.

Output:

Return an issue table with location, evidence, severity and smallest correction; then the corrected artifact and unresolved decisions.

TO HERE

BEFORE YOU SEND IT

- Factual claims trace to supplied evidence; proposals and unknowns are labelled.
