

Chapter 8 — Teacher Admin and Paperwork

25 prompts

None of this is teaching, and all of it takes teaching time. These prompts clear the paperwork quickly and in a professional register — brief, specific, and asking plainly for what you need.

What's in here

Group	Prompts	Use when
Staff emails	5	Short, clear, with the ask up front
Agendas and minutes	4	Meetings that end on time
Professional goals	4	Measurable, and actually achievable
Observation reflections	3	After a lesson observation
Field trip logistics	3	The list you will forget one item from
Clubs and duty plans	3	Running the thing outside lessons
Grants and proposals	3	Asking for money or resources

Worth knowing before you start

Put the ask in the first line. Everything after it is context, and half your readers will not reach it.

Do not promise a student outcome in a professional goal. "I will do X and gather evidence Y" is a goal you control; "scores will rise 10%" is not.

Anything with a date, an approval or a policy reference — check it against the real document. The model will produce a plausible date.

Ask for a one-line hallway version alongside the email. You will use it more.

Proposed goal: include one planned check for understanding in each of the next six weekly observed lessons and record the resulting instructional decision. Implementation evidence: lesson plan and observation note. Outcome evidence: response patterns on aligned checks, interpreted cautiously. Review after week three. This is a proposed professional goal, not a promise that a student score will improve by a set percentage.
